

Guilherme Hebling

Front-End Web Developer

📍 Oslo, Norway | ✉ gdhebling@outlook.com |

🌐 <https://gdhebling.com> | <https://www.linkedin.com/in/gdhebling> | <https://github.com/gdhebling>

SUMMARY

Front-end developer with a background in business administration and digital marketing. Attentive to detail and an eye for designing user interfaces. Keen on creating good solutions with a good user experience using HTML5, CSS3/SCSS, and JavaScript. Specializing in front end technologies like React, and in Node.js for the back end, while always looking after a nice user experience. Currently looking for the right opportunity where I can put my skills into practice while continuously expanding my knowledge within web development.

SKILLS

Front End:

HTML5, CSS3, JavaScript,
Sass/SCSS

Frameworks:

React, Bootstrap, Tailwind CSS

Design:

Figma, Adobe XD

Web Server:

Firebase, Google Cloud Platform

Version Control:

Git, GitHub

Tools:

VS Code, Chrome Dev Tools

PROJECTS

React Web App - RoboFriends

Web application created with React and deployed to GitHub Pages using the CRA environment. The application fetches data from an external JSON list via REST API and makes the information ready to be filtered.

[Deployed Website](#) | [GitHub Repository](#)

Amazon Clone

Web application created with **React** and deployed using **Google Firebase**.

React Router for UI, React Context API for basket, and user authentication.

[Deployed Website](#) | [GitHub Repository](#)

JavaScript Loan Calculator

Web application for simulating the calculation of different loans.

Considerable use of **DOM** Manipulation and **Vanilla JavaScript**.

[Deployed Website](#) | [GitHub Repository](#)

Photographer Portfolio

Responsive web design coded from scratch using **Sass/SCSS** and extensive use of **Flexbox** for the user interface, and JavaScript for responsive navbar and hamburger menu.

Designed the website mockup using **Figma** before the actual coding.
